

ATTENTION DELANCO RESIDENTS FROM THE DELANCO SEWERAGE AUTHORITY

MARK YOUR CALENDARS

The winter usage will begin September 20

instead of the current October 20

This is so the water consumption is closer to the bill date.

- September 20th, 2009 will be the new date to begin the winter month's usage instead of the current October 20th. So, any water consumption from September 20th until March 20th (or when the water company reads the meter in these months) will be used to calculate your sewer bill in the actual and averaged quarters too.
- The Authority is issuing a one time 1,000 gallon allocation for the 1st quarter to compensate for the additional water that may be used from September 20th until October 20th. So the minimum will be 11,000 gallons instead of 10,000 gallons.
- In summary, be conscientious of your water usage from September 20 until October 20: Do not fill pools, do not water grass or flowers and turn your sprinkler system off unless it's on a separate meter.

HERE IS A CHART OF THE METER READ MONTHS AND THE QUARTERS THEY WILL BE APPLIED TO:

<u>DATE OF SEWER BILL</u>	<u>SEWER AMOUNT BASED ON THESE WATER METER <i>READ</i> MONTHS **</u>
1 st Qtr - FEBRUARY 1 (Actual)	October, November, December
2 nd Qtr - MAY 1 (Actual)	January, February, March
3 rd Qtr - AUGUST 1 (Average)	April, May, June
4 th Qtr - NOVEMBER 1 (Average)	July, August, September

**Please note the water company reads the meters between the 20th and 25th of the months stated

Actual and Average quarters are changed:

1st & 2nd quarter sewer bills will be calculated using the actual water usage

3rd & 4th quarter sewer bills will be calculated using the **lesser of either**
the average of the 1st & 2nd quarters or the actual water usage of the current quarter

Any questions contact the office: 856-461-6876

**Please note the Delanco Sewerage Authority office hours are
Monday 7pm-9pm and Wednesday 11am-2pm**
