- Winning name will be chosen at 2:30PM on Community Day; winner need not be present to win.
- Cannot be exchanged for cash value.
- No advance entries; must enter drawing at Community Day.

LAWN MAINTENANCE DO's & DON'T's:

- ◆ Best Practice—Use a mulching mower to return clippings back to your lawn; clippings naturally fertilize the lawn creating a thick and lush lawn.
- ◆ Better Practice—Bag grass clippings and put out with regular trash collection. Use an environmentally friendly bag, if possible.
- ◆ Worst Practice—Allow grass clippings to accumulate in the street, blocking storm drains, contaminating drinking supplies, creating a slippery, messy hazard!

Blowing grass clippings, or any other debris into the street is in violation of Delanco's Stormwater Plan and Ordinance 2006-04. This type of debris can be washed by rain into the storm drains, directly affecting our drinking water supplies, clogging storm drains and causing flooding. Plus slippery grass clippings in the street pose a danger to bicyclists, cyclists and pedestrians!
